Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1645

DETAILED ACTION

Newly submitted claims 31-32, 34 and 37-49 are directed to an invention(s) that is independent or distinct from the invention originally claimed for the following reasons: the previously examined claims of the instant application were drawn compositions comprising a clostridial (intact) neurotoxin coupled to a drug. The proposed new claims are drawn to compositions comprising a clostridial neurotoxin light chain and a clostridial heavy chain wherein a drug or other bioactive molecule is joined to said light chain. These claims read on compositions comprising chimeric molecules as well as unjoined heavy and light chains.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-32 would be withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the instant amendment, if entered, would leave no claims drawn to the elected invention it is considered non-responsive.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A. Zeman whose telephone number is (571) 272-0866. The examiner can normally be reached on Monday- Thursday, 7am -5:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith can be reached on (571) 272-0864. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
